

Home Page Links

The screenshot shows the Philtec website interface. At the top, it says 'PHILTEC 20 Years of Innovation ... established 1985'. Below that is a large box with the text 'Fiber optic Displacement Sensors'. Underneath is the tagline 'For Non-Contact Measurement of Distance, Displacement and Vibration'. There are three main images: an analog sensor on the left, a multi-channel sensor in the center, and a digital sensor on the right. To the right of the digital sensor is a LabVIEW icon and the text 'DMS Firmware/Software Link Tutorial Now Available'. Below the images are several blue buttons: 'Products/Prices' (highlighted in red), 'Overview', 'General Specifications', 'Application Notes', 'USA Sales', 'Video Clips', 'Product Data Sheets', 'Temperature Limits', 'International Sales', 'Options', 'Catalog', and 'Measure In Vacuum'.

Operating Instruction Manuals

Mouse click on the pictures to get links to operating instruction manuals:

Left Picture - links to Analog D & RC manuals

Center Picture - links to

- 10DMS manual
- 10DMS Dimensional Drawing

Right Picture - links to all DMS manuals:

- DMS-RC
- miniDMS-RC
- DMS-D
- miniDMS-D
- 10DMS

DMS Firmware & Software

Mouse click on the LabVIEW icon to link to the DMS firmware and software update page. This page also includes the video tutorial.

Red Button

Provides complete product listing with U.S.A. and International List Prices

Blue Buttons

These buttons link to information that is described in the button titles.
